SECURITY SOLUTION ★ FACILITY MANAGEMENT

MR. S SRIKUMAR (FOUNDER)

A pioneer in the field of security have a vast experience of many years. He launched his own Security Service Company in 2017 & extended his wings by motive of sky is the limit. He has also diversified into exports. He has with his vision, dexterity, ingrained business acumen and professionalism, managed and developed the security to the top level. The company today has a national presence with 5 branches all over TamilNadu with a guard force of over 350 personnel.

MRS. SUJATHA SRIKUMAR (VICE PRESIDENT)

Redefining the old saying "Behind every successful man, there stands a woman"; Mrs. Sujatha Srikumar played a significant role in the success of the company. Being much more important than someone who works behind the scenes, she handled several administrative duties with strength and determination.

ABOUT US

We introduce ourselves as a venture by veterans basically by 13 to 15 years experienced from security based MNC's.

Our aim is to render a highly qualitative and competitive security service to the best satisfaction of the customers within their affordability covering all the short falls we have come across while working with security based MNCs and providing more efficiency.

Enthusiasm, excellence, professionalism and outstanding quality are our service motto rather than earning profit. so you will find us refreshingly different from all other security company.

VISION

At S2S our vision is to be committed to the relentless pursuit of innovation in the design and delivery of comprehensive security services. To be a company that stands apart from its competitors by being a leader in professionalism, Integrity and confidence by Providing **ONE STOP SOLUTION** to all security Guard

MISSION

Our aim is to render a highly qualitative and competitive security service to the best satisfaction of the customers within their affordability covering all the short falls we have come across while working with security based MNCs and providing more efficiency.

ARMED SECURITY GUARDS

We are an armed security guard company that warrants top-notch security to keep our clients safe. Our armed security guards are put under rigorous training to tackle any difficult situation that may arise unexpectedly.

With rising crime rates surrounding financial institutions and jewelleries, an armed guard will ensure that the belongings of the institution are safe and sound.

Our armed security guards are deployed for VIP security as well.

GUARD CONTROL

It is for the first time that the guard control system will be used extensively.

We shall be giving a QR code tag system in all the location covered under the contact.

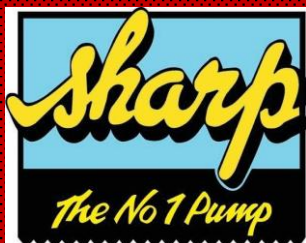

During the supervision round, our patrolling officer will scan the code using the application in the mobile at each location and the detailed night check report will be sent to the respective mobile Guard Control System. It's simple and convenient. Improves accountability. Offers automation.

Maintain and access an accurate history log. Real-time tracking. Data analysis. No download. No install. Budget Control & GPS monitoring.

For a detailed understanding
Scan the QR to know more.
